BREWHOUSE ALKALINE CLEANER

Why it's a better cleaner

- Classic, time-tested formulation.
- Low-Foaming – Ideal for CIP.
- Penetrates and removes beerstone deposits.
- Effectively eliminates mineral scales.
- Free rinsing, leaves no residue.
- Successful in hard water conditions.

How it cleans

CIP CLEANING AND SCALE REMOVAL:
Flush system with water. Prepare a 1% to 3% by volume solution of product in water. Water temperature selection should be 145-175°F. Circulate solution for 30 to 45 minutes. Drain system. Rinse thoroughly and follow with Brewhouse Acid Cleaner.

A traditional heavy duty, caustic cleaner formulated with water conditioning agents that promote cleaning in hard water.

Where it cleans

- Mash Tank
- Lauter Tun
- Brew Kettle
- Wort Cooler
- Fermentation/Maturation Tank
- Filtration
- Aging/Bright Beer Tank
- Bottle/Can Filler
