GOOD BUGS

**Superior Bio-Enzymatic
Deodorizing Cleaner for
Toilets, Urinals, Waterless
Urinals, Restrooms, and Floors**

Why it's better

- Pleasant fragrance immediately reduces noticeable odor.
- An odor counteractant binds existing odor molecules.
- Uses specific bacteria and enzymes to degrade odor producing organic matter .
- Uses specific bacteria and urease to degrade urea and uric acid.
- Uses a triple surfactant package to ensure cleaning.
- Contains ingredients to reduce scale associated with hard water.

GOOD BUGS combines fragrance, chemical counteractants, and bacterial enzymes for a three pronged attack on odor problems. Additionally, three surfactants and scale control agents provide cleaning.

Where it cleans

- Countertops
- Urinals
- Waterless urinals
- Floors
- Drains
- Sinks
- Tubs
- Cabinets
- Showers

How it cleans

Use a 4-8 oz. per gallon of water solution. Apply using a mop or trigger sprayer. Allow contact time for digestion of organics to occur. Wipe dry, rinse, or squeegee to drain.

Technical Data

Appearance.....Turbid Liquid
 Color.....Light Brown
 Odor.....Mandarin Orange
 Density.....8.4 lbs./gal.
 pH.....6.5-8.8
 Content.....Bacillus spore blend
 Bacterial Count.....2.55e + 11 cfu/gal.
