GREY CONCRETE CLEANER

Why it's a better cleaner

- Removes engine oil, grease and shortening
- Biodegradable
- Easy to use
- Rinses easily

How it cleans

Place wet floor signs in area to be cleaned. Remove gross soils and debris.

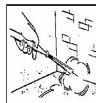

Apply a generous amount of full strength cleaner to the dry, soiled pavement. Use a deck brush to spread the solution evenly over a 10 ft. by 10 ft. soiled area and scrub thoroughly.

Allow the area to soak for 5 minutes for effective cleaning.

Scrub the same 10 ft. by 10 ft. area (crosswise) again with the deck brush.

Rinse the scrubbed area clean with water from hose down a nearby drain. Lightly brush any stubborn spots and rinse again.

For general cleaning, apply a generous amount of full strength cleaner.

Where it cleans

- Concrete
- Asphalt
- Brick
- Quarry tile
- Exposed aggregate

Technical Data

Appearance.....Clear Liquid
 Color.....Off White
 Odor.....Mild
